Human Connection

At a Glance

Sincere and passionate Software Engineer who thrives in a team environment. Driven and patient under challenging circumstances. Seeks to understand a problem prior to developing and executing a plan. Demonstrated eye for clean design and thoughtful user experience. My ideal role includes frontend, backend, or fullstack software development.

Experience

2019

Safe Mothers Safe Babies | 8 Week Developer Internship

- Developed a production-level prototype application for a Nonprofit with React, Node, and Frontline SMS..
- Built CRUD operational Administrative User Interface, configured an SMS messaging service to our backend application.

2016-2018

Oregon Dept. Of Human Services | Case Manager

- Conducted field risk assessments on the aged and disabled population of Oregon.
- Assessed and adhered to frequently changing policy and guidelines.
- Managed a heavy caseload and met strict guidelines for contact and communication among community partners and clients.

2013-2016

JAARL Investments | General Manager

+ Present

- Managed rental properties including maintainance and rent collection.
- Managed a restaurant, including a staff of 6.
- Managed Rental cabins at a lake resort, including bookings, maintainance, and customer relations.
