Experience

2020   **MUD Cyber Punk** | School, Cross-functional Sprint | GH Repo | Deployed
- Game application built using Django. Backend application serves a game map. Handles user creation and saves in-game player location.
- Frontend application fetches our data structure and renders it. User's can register to the game and explore the map.
- Key responsibilites included the FE application, implementing Redux and User Interaction with the game map, aided by visual library React-Vis.

2019   **Riders for Life** | 8 Week Developer Internship | GH Repo | Project Demo
- Developed a production-level prototype application for a Nonprofit in React, Node.
- Built CRUD operational Administrative User Interface, configured an SMS messaging service to our backend application
- Key responsibilities included the FE application, implementing Redux, creating reusable components, and design.

2019   **Chef Portfolio** | Node.js Express PostgreSQL | GH Repo
- Week-long sprint in a cross-functional team. Social media concept application. Built endpoints, handled JWT authorization and middleware, modled database to handle user, recipe types
- Fetch and observe user information from the Github API

2019   **Github Finder** | Training Program | GH Repo | Deployed
- React SPA built using classed based components for application and component level state, later refactored to hooks and context
- Fetch and observe user information from the Github API

2019   **React Tetris** | Personal Game Project | GH Repo | Deployed
- Creates a game stage, builds tetriminos to generate at random. Checks for collisions.
- Uses hooks to update the game stage and player position.

2019   **Dark Mode** | Custom Hooks & Local Storage | GH Repo | Deployed
- Setting and retrieving a storage object using a custom hook, stateful logic.
- Using a custom hook to determine whether our value is True or False.

2016-2018   **Oregon Dept. Of Human Services** | Case Manager
- Created service plans for individuals receiving Medicaid Benefits
- Developed community partnerships to build and sustain communication among health partners and care professionals

2013-2016 + Present   **JAARL Investments** | General Manager
- Property management and development, restaurant management, vacation home rental management

2011-2013   **Bravo's Restaruant** | General Manager
- Responsible for managing front of house operations from menu creation, beverage ordering, hiring and scheduling.
